

LifeOnRecord is the perfect way to preserve stories and well-wishes for birthdays, anniversaries, reunions, Bar/Bat Mitzvahs, and any other time when people come together to convey feelings of encouragement, support, or thanks.

With a simple phone call, friends and family will leave personal messages that can't be captured by photographs, and that are more meaningful than you would get from guestbooks and on-the-spot videotaping.

Using **LifeOnRecord** is Easy!

Callers are provided with a toll-free number and brief instructions on how to leave messages. When they call they will hear a personal greeting from you or the host of the event that describes the kind of story or message to relate. The caller then leaves a message in their own voice. You can then listen to the recordings from a telephone, our web site, download them into iTunes™, and receive them in email to pass along to others. LifeOnRecord can also send you a special keepsake CD of all the recordings.

Your family and friends have so much they'd like to share with you - let them say it in their own voices...

Callers pass-on parenting wisdom for the new mom and dad...

Friends recall their favorite story involving the birthday boy or girl...

Students give an end-of-year teacher's gift by describing their most memorable classroom experiences...
